

Why become a resource parent? Resource parents are a valuable asset for families and children. The children who come into a resource parent's home will present opportunities as well as challenges. The opportunity is that the love and care of adults can make a huge difference in the lives of these children. The challenge is these children have begun their lives under difficult circumstances involving the risk of abuse and neglect. Resource parenting is about changing lives, a child's and your own. Resource parenting is about believing, and investing in the future. You can make that investment. [Foster Care Campaign](#)
